

Data Collection Resources

FACL BC is working in collaboration with the Government of BC to engage with our members on the topic of anti-racist data collection and upcoming legislation that seeks to address it. FACL BC and the Government of BC will be collecting anonymous data from engagement sessions on January 11th and 12th, 2022. FACL BC will also be collecting anonymous data for our own report, at the sessions and through a survey that will be released closer to the event, to be shared with FACL BC members.

To inform participation in this engagement, FACL BC presents and encourages our members to explore the below resources on the intersection of data collection and anti-racism:

- Why race-based data in health care matters by Sejla Rizvic
<https://www.inclusion.ca/article/why-race-based-data-matters-in-health-care/>
- Report: Tracking COVID 19 Through Race-Based Data by Ontario Health
<https://www.ontariohealth.ca/our-work/equity-inclusion-diversity-and-anti-racism/report-covid-19-race-based-data>
- Disaggregated demographic data collection in British Columbia: The grandmother perspective by the BC Office of the Human Rights Commissioner
<https://bchumanrights.ca/publications/datacollection/>
- Proposed standards for race-based and Indigenous Identity Data by the Canadian Institute for Health Information
<https://www.cihi.ca/en/proposed-standards-for-race-based-and-indigenous-identity-data>
- Racism and Racial Discrimination: Data Collection (Fact Sheet) by the Ontario Human Rights Commission
